Java Online Judge System

demo2 ▾

Student ID:

standard ▾

選擇檔案

SUBMIT

Score: 100 (Runtime: 77 ms)

#	Result	Input	Your Answer	Expected Answer
1	Accepted	Java Online	Input 1: Java Input 2: Online Output 1: java Output 2: ONLINE	Input 1: Java Input 2: Online Output 1: java Output 2: ONLINE
2	Accepted	Judge System	Input 1: Judge Input 2: System Output 1: judge Output 2: SYSTEM	Input 1: Judge Input 2: System Output 1: judge Output 2: SYSTEM

Input File Format

- Create a zip file with the following contents:

```
F76543210.zip
```

```
| - src
```

```
| - META-INF
```

```
|   | - MANIFEST.MF
```

- The zip file name should be your student ID
 - All the source files (*.java) are put in the `src` directory
 - The entry point (i.e. main class) of the program is specified in the `MANIFEST.MF` file
- Example: <https://goo.gl/UsMe1P>

Steps

1. Choose a homework id
2. Fill in your student id
3. Choose an execution mode
 - standard: program arguments as program input
 - stdin: standard input (i.e. keyboard) as program input
4. Upload the zip file you just created
5. Press SUBMIT button to start the judgement
